1 Statement

Sir,

Sub - Revised Estimate for Rs.11,500/- for layout of submain etc in Rajput and Maharatta Blocks Mysore

I have the honour to state that the Mysore Municipal Council in recording approval to the above revised estimate have observed that any further revision of the estimate owing to the delay in the execution of the work by this Department will not be binding on the Municipality to allow the enhanced rates if any This was communicated to the Sanitary Engineer by the President in his letter No 4485/44-45 dated 1-2-1945 The Sanitary Engineer reported the fact to this office and a copy of this office letter No C 18-41 dated 6-3-1945 addressed to the President, Mysore City Municipality intimating the unworkability of the condition is enclosed for the information of Government

Sub - Revised estimate for Rs.11,500/- for layout of submain etc in Rajput and Maharatta Blocks, Mysore

---

With reference to your letter No M 4-485/44-45 dated 1-2-1945 addressed to the Sanitary Engineer on the above subject, communicating the approval of the Municipal Council to the revised estimate with the observation that any further revision of the work by the Department will not be binding on the Municipality to allow the enhanced rates, etc I have the honour to inform that no liability can be attached to the Department resulting in enhancement of rates As stated by the Sanitary Engineer in his letter No 855 dated 15-2-1945 (copy enclosed) addressed to this office consequent on the international situation, the cost of materials is fluctuating day by day Any fluctuation in rates due to time taken for calling tenders, observing the necessary formalities, may result in the revision of the estimate The revision of the estimates in such circumstances is inevitable, and the department cannot hold itself responsible for any increase over the sanctioned estimate

I would request you to place before the Municipal Council the unworkability of the conditions attached to the resolution The Bureau of Sanitary Engineering will take up works for execution after all the formalities are gone through, and it cannot be held responsible for any inevitable delay and consequent revision of estimates

Letter No C18-81/W-S/44-45 Dt 4-4-45 from the Dir of P Health forwarding a copy of letter No received from the Sanry Engineer, Bureau of Sanry Engineering stating that he is calling for tenders to take up the work.

Worked with a draft letter to the Chief Engineer for Irrigation calling for a detailed note

KLB 7/5

Subj.— Revised Estimate for Rs 11500/- for the lay-out of Sulvanam, etc in the Rajpet and Hathwata Blocks Mysore

1 An estimate was sent to Sanitary Engineer in Superintendent's No 814 of 20/12/37 for laying 3" C I and 1½" and 2" G I Sub Mains

2 In Sanitary Engineer's No 2658 of 7/1/39, the estimate amounting to Rs 4015 seems to have been referred to the Municipality Out of this, funds of Rs 1069 were given for an urgent portion of the work and the countersigned estimate for this portion has been executed

3 In No 3066 of 22/2/1939 Sanitary Engineer sent an estimate for Rs 3022/- for the remaining works The President is seen to have deposited the amount on 21st April 39 But the estimate does not seem to have been returned countersigned The work was not executed

4 In M 47 of 4/9/44 the President addressed the Sanitary Engineer to find out why this work was not executed even after 5 years since the deposit was made

5 In No 768 of 7/11/44 Sanitary Engineer sent a revised estimate for Rs 11,500/- reporting that the costs of materials and labour have risen up, the old estimate has not been sanctioned and the present estimate adopts 3" C I pipes through-out instead of 1½" and 2" G'I pipes which are costlier and not available also

6 The President's letter of 1/2/1945 to Sanitary Engineer No 768 of 7/11/44 said they would not pay for such excesses in future if due to delay in execution the estimates were to be exceeded They had however resolved to countersign this estimate for Rs 11,500 and would pay the balance over Rs.3022 after Government sanction the revised estimate

p t o

7 This view is being objected to by Sanitary Engineer and by the Director of Public Health for the reason that due to fluctuating conditions of rates of materials due to the international situation and the difficulty to get labour the esti-mates may need revision and the excess has to be met by the Municipal Council as their liability

8 The president wrote again on 8/3/45 that the amount would be placed at the credit of Sanitary Engineer as soon as Government sanction for Rs. 11,500/- estimate is got and in the mean-while tenders may be got and works started at least now

9 The Sanitary Engineer in 979 of 17/2/1945 has solicited orders to call for tenders

10 The Director of Public Health has submitted the same in his C 18-81 W S of 4/4/45 to Secretary, Locl Self Government for orders

---

6. An estimate for this work has been since received from the Chief Engineer for sanction. It may be put up for

Bring to the notice of Govt the
inordinate delay of Six Years in the
execution of works relating to the laying
Mains and Sub-mains in Taluq first and
Mahratta Wards, Mysore and want of
action on the part of Sanitary Bureau in
not executing other works also for which
amounts were deposited years back and
requests order of Govt on the resolution
d 31-3-45 of the City Municipal Tal
to transfer the Vanivilasa water works
to the control of the Superintending Engineer,
Mysore Circle

Subj — Laying Sub roads in Rajput and Mahratta Blocks, Narasimharaja Mohalla Mysore city

During January 1939, the Sanitary Engineer forwarded an Estimate amounting to Rs 4015/ to the President Mysore city Municipal Council for laying out Sub roads in the Rajput and Mahratta Blocks out of this, funds to the extent of Rs 1069/ were given for an urgent portion of the work and the countersigned estimate for this portion of the work has been executed

13) On February 1939 the Sanitary Engineer forwarded to the President Mysore City Municipal Council another Estimate for Rs 3022/ for the remaining works On 21-4-39 the President deposited with the Sanitary Engineer the sum of Rs 3022/ towards the cost of the above Estimate But the Estimate does not seem to have been returned countersigned by the President to the Sanitary Engineer and the work was not executed

14) The Sanitary Bureau did not start the work for six years On 15-2-45 the Sanitary Engineer forwarded an Estimate for Rs 11500/, which was

nearly four times the annual Estimate for the above work to the present Mysore city Municipal Council

The city Municipal Council have approved this Estimate with the observation that any further revision in the Estimate owing to the delay in the execution of the work by the Sanitary Bureau could not bind the Municipal Council to pay enhanced rates if any

The above view of the Mysore city Municipal Council objected to by the Sanitary Engineer and the Director of public health for the reason that due to fluctuating conditions of the rates of materials due to the international situation and the difficulty to get labour, the Estimates may need revision and the excess has to be met by the Municipal Council as their liability.

But the Mysore city Municipal Council have objected to a) the unreasonable delay of 6 years in the execution of the work, resulting in unnecessary loss to the extent of Rs Rs 8478/ to the Municipality, for which the Sanitary Bureau is to be held responsible, unless the delay is satisfactorily accounted for

by the number of other works which have not been

executed or outlay for which have not been furnished by the Sanitary Bureau although the amounts of the Estimate were deposited many years ago and heavy advances are outstanding

(2) Having regard the above facts, the Mysore city Municipal Council have on 31-3-45, resolved that the Vanivilasa water works, Mysore, be placed under the control of the Superintending Engineer, Mysore Circle

(3) The Chief Engineer for Irrigation has since submitted the consequential Revised Estimate for Rs 11,500/ for the above work, for sanction under "Contributions" Even this estimate requires further revision, as no provision has therein been made for the Establishment and Tools and plant charges at 18½/ and the corresponding excess amount of the Estimate has to be sanctioned again by the Mysore city Municipal Council

The points for orders —

1) to return the above Revised Estimate to the Chief Engineer, for including the Establishment and Tools and plant charges, as per rules and resubmit it after consequential by the Mysore

to the Municipal Council 79/1

2) to ascertain from the Director of Public Health the causes for the inordinate delay of six years in executing the work

and

3) to obtain the remarks of the P. W. Secretary on the proposal of the Municipal Council to place the Vanivilasa Water Works under the Control of the Superintending Engineer, Mysore Circle

) Action will be taken in the above points in the first instance

1) Report from Municipal Council

Sub Revised estimate for Rs 11,500 for laying out of submain etc in Rajput and Maharatta Blocks Mysore

---

In continuation of this office letter No C 18-50 dated 10/13th March 1945 enclosing a copy of the letter addressed to President, Municipal Council, Mysore on the above subject, I have the honour to state that the Sanitary Engineer intimates in his letter No 979 dated 17th March 1945 that he is calling for tenders and taking up the work in anticipation of receipt of balance funds to the extent of Rs 8478 The President, Municipal Council, Mysore has intimated the Sanitary Engineer in his letter No L 4-485/44-45 dated 6-3-45 that the amount will be placed at the disposal of the Bureau of Sanitary Engineering on receipt of Government sanction A copy of the letter is enclosed for the information of Government

I have the honour to be,
Sir
Your most obedient servant,

Director of Public Health

Copy of letter No

Copy of letter No 779 dated 17-3-45 from the Sanitary Engineer

---

Re Revised estimate for Rs 11,500/- for layout of submain etc in Rajput and Maharatta blocks, Mysore

---

In continuation of this office letter No 855 dated 16-2-45 regarding the above, I have the honour to submit herewith a copy of a further letter No M 4-485/44-45 dated 6-3-45 received from the President, City Municipal Council, Mysore, in this connection and to state that under the circumstances stated by the President, City Municipal Council, Mysore, I am calling for tenders and taking up the work in anticipation of receipt of balance funds to the extent of Rs 8,478/- and sanction to the revised estimate The action taken may kindly be approved to save further delay and revision of the estimate

---

Letter No M 4-485/44-45 dated 6-3-45 of the President, City Municipal Council, Mysore

---

Re Revised estimate for Rs 11,500/- for laying submain in Rajput and Maharatta blocks

---

With reference to your letter No 855/1 dated 16-2-45 addressad to the Director of Public Health in Mysore, Bangalore, a copy of which was sent to this office in your No 1771 dated 16-2-45, I have the honour to request you to kindly obtain sanction of Government to the revised estimate as the amount exceeds Rs 5,000/-

In your letter under reference it is stated that it is not possible to say definitely whether the estimate would require revision or not unless tenders are called for, for the work But this statement is made after the lapse of six years resulting unnecessarily, without even arranging for the execution of the work, in a loss of Rs 8,478/- to this municipality Anyhow the amount will be placed at your disposal on receipt of sanction of Government

The Municipal council have resolved in their meeting held on 27-1-45 that any furtherrevision owing to delay in the execution of the work by water works department cannot bind the Municipal council to pay enhanced rates

I therefore request you to kindly arrange to take up the work immediately with a view to avoid further excess cost

1 JUL 1945
L S G BRANCH

Office of the President
City Municipal Council Mysore
Date 28th May 1945

From

R Ramachandra Rao Bhombore, Esq B A,
President, City Municipal Council,
MYSORE

To

C Narayanaswamy Naidu, Esq ,B A.,B.L ,
Legal Remembrancer and Secretary to Government,
Law Department, Bangalore

Sir,

I have the honour to state that a sum of Rs 3,022 was deposited with the Sanitary Engineer in the year 1939 towards the cost of an estimate for laying mains and submains and erecting 4 public fountains in Rajput and Mahratta Blocks, Mysore City Narasimharaja Mohalla The Sanitary Department did not start the work for 6 years but on 15-2-1945 a revised estimate for Rs 11,500 was received for nearly 4 times the original estimated amount The Municipal Council however sanctioned the estimate with the observation that any further revision in the estimate owing to the delay in the execution of the work by the Water Works Department could not bind the Municipal Council to pay enhanced rates, if any This resolution of the Municipal Council was duly communicated to the Sanitary Engineer and in response thereto the Director of Public Health has written to say, among other things, that no liability could be attached to their departments on account of the increase in the estimated cost in view of the circumstances explained in his letter A copy of his letter No C 18-41 W.S./44 dated 6-3-1945 is enclosed herewith for favour of perusal

It is no doubt an admitted fact that the Department cannot bind itself to fluctuations in the market rates of materials but there is absolutely no reason for such an inordinate delay of 6 years in the execution of the work although the required amount of the estimate was placed at the disposal of the Department resulting in a revised estimate for a huge amount involving the Municipality thereby in unnecessary loss to the extent of Rs 8,478 The Sanitary Department has therefore to be held responsible for this long delay and for the consequent loss to the Municipality unless the delay is satisfactorily accounted for Besides, there are a number of other works which have not been executed or

for which has not been furnished although the amounts were placed at the disposal of the Department many years ago and heavy advances are outstanding against them. Taking these facts into consideration the Municipal Council have resolved in their meeting held on 31-3-45 to the effect that the letter of the Director of Public Health be forwarded to Government with a request to place the Vani Vilas Water Works under the direct supervision and control of the Superintending Engineer, Mysore, to avoid unnecessary delay in the matter of correspondence and execution of works A copy of the Resolution is enclosed herewith. I request you to be so good as to kindly obtain early orders of Government in the matter and communicate the same to this office.

I have the honour to be,

Sir,

Your most obedient servant,

PRESIDENT

Letter No U 18-41/W S/44-45 dated 6th March 1945 from the Director of Public Health in Mysore, Bangalore, to the President, City Municipal Council, Mysore

--

Revised estimate for Rs 11,500 for layout of submain etc , in Rajput and Maharatta Blocks, Mysore

--

With reference to your letter No M4 485/44-45 dated 1st February 1945 addressed to the Sanitary Engineer on the above subject, communicating the approval of the Municipal Council to the revised estimate with the observation that any further revision of the work by the Department will not be binding on the Municipality to allow the enhanced rates etc I have the honour to inform that if no liability can be attached to the Department resulting in enhancement of rates As stated by the Sanitary Engineer in his letter No 855 dated 15-2-1945 (copy enclosed) addressed to this office, consequent on the international situation, the cost of materials is fluctuating day by day Any fluctuation in rates due to time taken for calling tenders, observing the necessary formalities may result in the revision of the estimate The revision of the estimates in such circumstances is inevitable, and the department cannot hold itself responsible for any increase over the sanctioned estimate

I would request you to place before the Municipal Council the unworkability of the conditions attached to their resolution The Bureau of Sanitary Engineering will take up works for execution after all the formalities are gone trhough, and it cannot be held responsible for any inevitable delay and consequent revision of estimates

Sir

Laying 3" submains in Rajput and Mahratta Blocks, Narasimharaja Mohalla, Mysore

---

I have the honour to forward herewith a copy of the resume of correspondence on the above subject, received from the Executive Engineer, Water Supply Division, and to state that, it is reported by the Executive Engineer that the people in the locality are put to great suffering on account of inadequate water supply and hence the work has to be executed expeditiously to improve water supply

2 The accompanying estimate amounting to Rs 11,500/- for the purpose has been countersigned by the President, Municipal Council, Mysore and due to the urgency, the Executive Engineer has arranged to call for tenders for the work The rates for cast iron pipes have been raised and it remains to be seen how the lowest tender rates would compare with the estimate rates In case the tender rates exceed the estimated rates, it will be necessary to revise the estimate No provision has been made in the estimate for Establishment, Tools and Plant charges The Executive Engineer is requested to explain this omission

3 In the meanwhile, I request you to be so good as to obtain the sanction of Government under " Contributions" to the estimate amounting to Rs 11,500/- so that the work may be proceeded with briskly

Action taken by the Executive Engineer in calling for tenders

P. T. O.

ter ers, pending sanction to the estimate, may kindly

be approved.

I have the honour to be,

Laying submains in Rajput and Mahratta Blocks, Narasimharaja Mohhalla, Mysore City

---

(A note got up from the file got from Sanitary Engineer's Office)

---

1 An estimate was sent to Sanitary Engineer in Superintenden No 814 of 20-12-37 for laying 3" C I and 1½" and 2" G S sub mains

2 In Sanitary Engineer's No 2658 of 7-1-39, the estimate amounting to Rs 4015/- seems to have been referred to the Municipality Out of this funds of Rs 1069/- were given for an urgent portion of the work and the countersigned estimate for this portion has been executed

3 In No 3066 of 22-2-39 Sanitary Engineer sent an estimate for Rs 3022/- for the remaining works The President is seen to have deposited the amount on 21st April 39 But the estimate does not seem to have been returned countersigned The work was not executed

4 In M 47 of 4-9-44 the President addressed the Sanitary Engineer to find out why this work was not executed even after 5 years since the deposit was made

5 In No 768 of 7-11-1944 Sanitary Engineer sent a revised estimate for Rs 11,500/- reporting that the costs of materials a and labour have risen up, the old estimate has not been sanctior ed and the present estimate adopts 3" C I pipes through-out instead of 1½" and 2" G I pipes which are costlier and not available also

6 The President's letter of 1-2-45 to Sanitary Engineer No 768 dated 7-11-44 said that they would not pay for such excesses in future if due to delay in execution the estimates were to be exceeded They had however resolved to countersign this estimate for Rs 11,500/- and would pay the balance over Ps 3022 after Government sanctioned the revised estimate

7 This view is objected to by Sanitary Engineer and by the Director of Public Health for the reason that due to fluctuating conditions of rates of materials due to the internatibnal situation and the difficulty to get labour the estimates may nee revision and the excess has to be met by the Municipal Council as their liability

8 The President wrote again on 8-3-45 that the amount would be placed at the credit of Sanitary Engineer as soon as Government sanction for Ps 11,500/- estimate is got and in the meanwhile tenders may be got and works started atleast now

9 The Sanitary Engineer in No 979 of 17-2-1945 has solicited orders to call for tenders

10 The Director of Public Health has submitted the same in his No C 18-81 of 4-4-45 to Secretary, Local Self Government for orders

Revised Estimate for Rs 11,500/ for layout of Sub-main, etc in the Rajpuri and Maharaja Blocks, Mysore

Sir,

With reference to your letter no 18-50/ W S 44-45 dt 13-3-45, on the above subject, I am directed to state that the President, Mysore City Municipal Council while conceding that the Sanitary Bureau cannot bind itself to the fluctuations in the market rates of materials, has brought to the notice of Govt the inordinate delay of six years in the execution of the above work, (even though

the City Municipality had deposited the amount of the Estimate) resulting in unnecessary loss to the extent of Rs 8478/- to the Municipality, for which the Sanitary Bureau is to be held responsible

I am therefore to request You to kindly intimate the causes for such an inordinate delay on the part of the Sanitary Bureau in executing the work

The favour of an immediate reply is requested

Sir

Revised estimate for Rs 11,500/- for layout of sub-mains in the Rajput and Mahratta Blocks, Mysore

In continuation of this office letter No 3134/S dated the 13th May 1946, on the above subject, I have the honour to forward herewith a note received from the Sanitary Engineer, explaining the circumstances in which the work could not be put in hand well in time

6/7

2 The revised estimate amounting to Rs 11,500/- was sanctioned in Government Order No L 796-8/M1 40-45-4 dated 3rd August 1945, and the Executive Engineer, Water Supply Division, has arranged for the execution of the works

I have the honour to be
Sir,
Your most obedient servant,

Chief Engineer for Irrigation.

SS 4/7

6/7

NOTE REGARDING LAYING SUB-MAINS IN RAJAPUT AND MAHARATHA BLOCKS, NARASIMHARAJA MOHALLA, MYSORE CITY.

An estimate for Rs 4,150/- for the above work was forwarded to the President City Municipal Council, Mysore, for countersignature and providing funds with this office No 2658 dated 7-1-1939

An estimate for Rs 1069/- being the portion of the estimate of Rs 4150/- was sanctioned by the Director of Public Health, Vide No C 874-8 dated 27-1-1939, duly countersigned by the President City Municipal Council, Mysore, Necessary deposit was received and work to the extent of funds was also executed

The Superintendent, Vani Vilas Water Works, Mysore, in his letter No 1090 dated 11-2-1939 submitted an estimate for Rs 3220/- for the balance works as 2nd stage of the estimate of Rs 4150/-

This estimate was scrutinised in this office for Rs 3022/- and was forwarded to the President City Municipal Council, Mysore, for countersignature and providing funds with this office No 3366 dated 22-2-1939 as per letter No G T 1850 dated 6-1-1939 of the President City Municipal Council, Mysore addressed to the Superintendent, Vani Vilas Water Works, Mysore

The President City Municipal Council, Mysore, Vide his letter No G T&N 937 E 4 dated 4-5-1939 deposited a sum of Rs 3022/- being the estimated amount of the 2nd stage work, along with other two deposits for other works and also enclosed duplicate copies of estimates and requested this office to execute the work

The duplicate estimates as received from the President, were submitted to the Director of Public Health for communicating sanction vide this office No 1273 dated 18-5-1939

In reply the Director of Public Health in his letter No 1429-11

P T O

1429-11 dated 19-5-1939 requested this office to submit the original countersigned estimate as the one submitted was only a copy

The Director of Public Health was replied in this office No 1354 dated 30-5-1939 that the estimates submitted for sanction, were those that were received from the President City Municipal Council, Mysore, and requested him to intimate what was actually required

The Director of Public Health vide No 1429-13 dated 12-6-1939 ordered this office to obtain and submit for sanction the original estimate from the President City Municipal Council, Mysore

The President City Municipal Coucril, Mysore was addressed in this office No 5760 dated 24-6-1939 to return the original estimate duly countersigned, (the one that was forwarded to him in this office No 3366 dated 22-2-1939) as the same was required to be submitted for sanction A copy of Director of Public Health's letter was also enclosed

The Director of Public Health was reminded vide this office No 139 dated 3-8-1939 inviting reference to this office No 1273 dated 30-5-39 and subsequent letter No 1354 dated 30-5-1939 to return the estimate duly sanctioned, as the money was received long back and the residents of the locality were pressing for the execution of the work

The Director of Public Health vide his letter No C 1429-16 dated 11-8-1939 drew attention to his Memo No C 1429-11 dated 19-5-1939 calling for the original countersigned estimate

In this office letter No 247 dated 15-8-39 addressed to Director of Public Health the original office copy of estimate for Rs 3022/- was submitted for kind perusal and return along with sanctioned plans and estimates to enable this office to put the work on hand and complete early as the money was received in this office long back and much difficulty was being felt in the locality

In reply the Director of Public Health in his letter No c 1429-17 dated 24-8-1939 requested to submit the original estimate already called for , as the one submitted by this office was only the office copies of of estimate

P T O

estimates

Copy of the above letter from Director of Public Health was forwarded to the President City Municipal Council, Mysore, with this office No 1100 dated 25-8-39 for returning the original estimate countersigned, for obtainin sanction and also invited referee to this offee No 5760 dated 24-5-39 Copy of the above letter was also submitted to Director of Public Health Vide Memo No 303 dated 26-8-1939

As the original countersigned estimate was not returned by the President in spite of several reminders by this office, and as the Director of Public Health insisted upon the submission of the original estimate , for according sanction ~~xxxxxxxxxxxxxxxxxx~~ the estimate was not sanctioned and returned to this office for further action and the work could not be executed for want of sanction to the estimate, by competent authority

The President City Municipal Council, Mysore Vide his letter No 47 dated 4-9-1944 enquired this office, why the work was not executed, though the Deposit was made so far back as 5 years

Since the original estimate for Rs 3022/- for 2nd stage work prepared so far back as 1939 ~~xxxxxxx~~ this was not received countersigned from the President and work was not taken up, It became unworkable during the year 1944 due to abnormal increase in prices of both materials and labour due to war condition A revised estimate for Rs 11,500/- had to be got up and forwarded to the President, City Municipal Council Mysore, vide this office No 768 dated 7-11 1944 for fresh countersignature and sanction

The President, City Municipal Council, Mysore, intimated that they would not pay for such excesses in future if delay in execution contributed to the excess and Municipal Council having resolved to counter sign this estimate for Rs 11,500/- ~~and~~ would pay the balance over Rs 3,022/- after Government sanction to the revised estimate

The President has been replied in this case that the dealy was not due to this Department, but ~~one~~ due to the non return of the original estimate countersigned by by the Municipal Council for being submitted for sanction

P T O.

sanction, and also that the contention of the Municipal Council, that they would not in future pay the increased rates due to fluctuation of market rates during war was not regular, since this was an unforeseen factor which no body could possibly anticipate and provide for

The President addressed ~~xx~~ this office again on 8-3-1945 that the amount would be placed at the credit of this office as soon as Government sanction for Rs 11,500/- estimate was got and in the mean time tenders may be called and work started at least now

In this office No 979 dated 17-2-1945 to the Director of Public Health ~~orderex~~ were solicited to call for tenders

The Director of Public Health, submitted ~~to~~ same to the Secretary to the Goverment, Local Self Government for orders with his Mar C. 18-81/45 dated 4-4-1945

Neither the original estimate nor the revised estimate is received sanctioned till now, nor orders communicated to call for tenders The work could not therefore be taken up in the circumstances explained above and further orders are requested

Sanitary Engineer

31/5

Copy letter No 855 dated 15-2-1945 from the Sanitary Engineer

---

Re Revised estimate for Rs 11,500/- for layout of submain etc in Rajput and Maharatta Blocks, Mysore

---

I have the honour to enclose herewith a copy of letter No M 4-485/44-45 dated 1-2-1945 of the President, Municipality Council, Mysore city received in the above connection The president states that the Municipal Council have resolved that any further revision of the estimate owing to the delay in the execution of work by this Department will not be binding on the Municipality to allow the enhanced rates, if any

I wish to point out in this connection, that it will not be possible to undertake the works for the Municipality under these conditions Consequent on the International situation the cost of materials is fluctuating day by day and it has become practically impossible to arrive at even the approximate figure while estimating Further regarding labour, it is difficult to obtain it and the tendered contractors very often back out at the last moment Any fluctuation in rates due to the time taken for calling for tenders and observing the required formalities might result in the estimate having to be revised I can only assure that the work will be taken up promptly but cannot hold out responsibility regarding tendered rates

I, there, forequest you to kindly address the Municipal Council, Mysore, regarding the practical unowrkability of such conditions in the resolutions and forwarding them to this office A copy of this letter is also being sent to the President, City Municipal Council, Mysore, for necessary information

---

Letter No M 4-485/44-45 dated 1-2-1945 of the President, Municipal Council, Mysore.

With reference to your letter No 768 dated 7-11-44 forwarding for countersignature a revised estimate for Rs 11,500/- for the layout of submain etc in Rajput and Maharatta blocks, I have the honour to state that the Council have accorded approval to the revised estimate with the observation that any further revision of the estimate owing to the delay in the execution of the work by your

Department will not be binding on the Municipality to allow enhanced rates, if any

In this connection it is requested that the amount of original sanctioned estimate and the amount already advanced with Cheque No and date may kindly be intimated to facilitate ther action being taken in regard to the adjustment of the amt the revised estimate

Laying submains in Rajput and Mahratta Blocks
Narasimharaja Mohalla,
Mysore City.

~~(A note set up from the File got from Sanitary Engineer's Office).~~

1. An estimate was sent to Sanitary Engineer in Superintendent's No.814 of 20-12-37 for laying 3" C.I. and 1½" and 2" G.I. Sub Mains.

2. In Sanitary Engineer's No.2658 of 7-1-39, the estimate amounting to Rs.4015 seems to have been referred to the Municipality. Out of this funds of Rs.1069 were given for an urgent portion of the work and the countersigned estimate for this portion has been executed.

3 In No.3006 of 22-2-39 Sanitary Engineer sent an estimate for Rs.3022/- for the remaining works. The President is seen to have deposited the amount in 21st April 39. But the estimate does not seem to have been returned countersigned. The work was not executed

4. In M 47 of 4-9-44 the President addressed the Sanitary Engineer to find out why this work was not executed even after 5 years since the deposit was made.

5. In No.768 of 7-11-44 Sanitary Engineer sent a revised estimate for Rs.11,500/- reporting that the costs of materials and labour have risen up, the old estimate has not been sanctioned and the present estimate adopts 3" C.I. pipes through out instead of 1½" and 2" G.I. pipes which are costlier and not available also.

6. The President's letter of 1-2-45 to Sanitary Engineer No.768 of 7-11-44 said they would not pay for such excesses in future if due to delay in execution the estimates were to be exceeded. They had however resolved to countersign this estimate for Rs.11,500 and would pay the balance over Rs.3022 after Government sanction the Revised estimate

7. This view is being objected to by Sanitary Engineer

Engineer and by the Director of Public Health for the reason that due to fluctuating conditions of rates of materials due to the international situation and the difficulty to get labour the estimates may need revision and the excess has to be met by the Municipal Council as their liability.

8. The president wrote again on 8-3-45 that the amount would be placed at the credit of Sanitary Engineer as soon as Government sanction for Rs.11,500/- estimate got and in the while tenders may be got and works started at least now.

9. The Sanitary Engineer in 979 of 17-2 -45 has solicited orders to call for tenders.

10. The Director of Public Health has submitted the same in his C 18-81 W.S. of 4-4-45 to Secretary, Local Self Government for orders.

Executive Engineer,
Water Supply Division

L 2986/Mil 39-46-14
To & 21 & 46

The Chief Engineer for Irrigation
in Mysore

Revised estimate for Rs 11,500/- for the Layout & Laborers in Rajaji- and Mahratta Streets, Mysore City -

S. v,

With reference to your letter no 45-46/E dated 6-7-46 furnishing a note recording the several stages of delay in the disposal of the above estimate, I am directed to state that in the circumstances mentioned in

Your letter, (and their answer) of
Enclosure may be drafted.

Yours truly

[signature]

For Secretary to the
Revenue Board
